BUG REPORTING

Bug Name: Some translations are lost in pt liferay form exercise.

Area Path: Liferay Forms > Form Testing Exercise

Build Number: build_fake_3.SNAPSHOT

Severity: LOW (High/Medium/Low)

Reported By: Alfredo Soto

Reported On: 13/12/2021

Reason: Defect

Test Case Related: #2

Status: Open

Environment: Windows 10 + Chrome Version 96.0.4664.93 (Build official) (64 bits)

Description: Liferay Form Testing exercise are shown English text when pt language is selected.

Steps to Reproduce:

1) Go to https://forms.liferay.com/web/forms/shared/-/form/122548

2) Change language to pt

3) Some texts are not translated to pt and are shown in English:

- Let's party rock.
- Indicates Required Fields.
- Data picker months.

See attached screenshot to see it:

Expected Result: All messages should be displayed in language selected. In this case, in pt.

Bug Name: Inconsistent behaviour of dob field using data picker or typing a date.

Area Path: Liferay Forms > Form Testing Exercise

Build Number: build_fake_3.SNAPSHOT

Severity: LOW (High/Medium/Low)

Reported By: Alfredo Soto

Reported On: 13/12/2021

Reason: Defect

Test Case Related: NONE (Exploratory testing)

Status: Open

Environment: Windows 10 + Chrome Version 96.0.4664.93 (Build official) (64 bits)

Description: Date of birth field is shown different behaviour depending if we selected from data picker or I type it.

Steps to Reproduce:

1) Go to https://forms.liferay.com/web/forms/shared/-/form/122548

2) Fill a Name and a testing reason with valid data.

3) Choose a date using data picker

4) Delete two numbers of year selected using keyboard and click Submit.

5) Repeat operation until step 3 and type the dob: 12/12 and click submit

6) Repeat steps and click submit

See video attached

Expected Result: Same behaviour in each case. Sometimes are displayed a different message error and sometimes the form is sent. See video until the end.

Other considerations

- Related with dob field, when this error is shown:

  I would say that WhatIsTheDateOfYourBirth es the key of the message and it is not displaying the value itself.

- I don't know if we can considerer a bug or not (maybe it's a feature ;) but I would say YES) but tab functionality is not working properly because it's selecting label field instead to focus on the text box:

To sum up, I would say that apart from how to reproduce the error, add a video or a screenshot is important, as well provide logs if we can.
